CamSquare® Food Containers

It's aggravating when you can't find the right lid to fit your container! So we solved that problem. CamSquares are color coded, the cover color matches the graduation color. What could be simpler?

Green covers fit containers with green graduations. Orange covers fit containers with orange graduations. Blue covers fit containers with blue graduations.
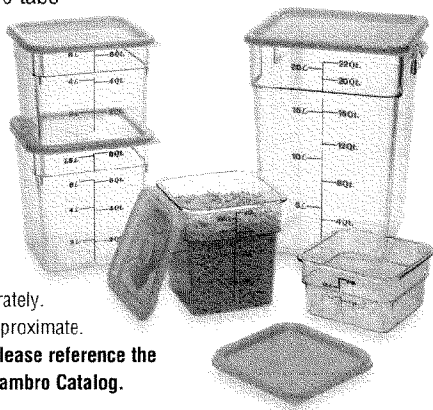

CamSquare Containers—Camwear®   (NSF)

There's more - They take up 33% less space than round containers! They are clear so you can tell what's inside at a glance. And, they are made from Camwear polycarbonate so they will actually bounce off a tile kitchen floor and not break!

We print graduations on the outside so you know how much you have inside. CamSquares come in seven sizes from 2 - 22 qts. (1,9 - 20,8 L) to cover all food storage needs. Color coded snap-tight covers must be ordered separately and feature tabs so they can be easily removed.
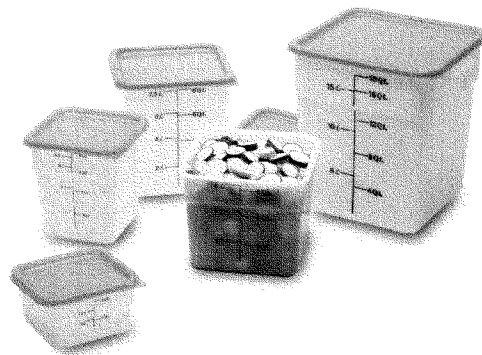

CamSquare Containers—Poly   (NSF)

The Poly versions of our CamSquare Storage Containers have the same space saving design and color matching system plus, they save money! They come in the same seven sizes and feature the same handy graduations. Best of all, they save space—up to 33%. The only difference is they are made from white FDA approved polyethylene so they are very affordable. All CamSquares stack and nest easily, are dishwasher safe and resist stains, acids and odors. Snap-tight covers with tabs are available for Poly CamSquares and are ordered separately.

Covers are ordered separately.
Note: Graduations are approximate.
For more information, please reference the Storage section of the Cambro Catalog.

CamSquare® Food Containers   Specifications

| Camwear® Code	Poly Code	Quart/Litre Capacity	Dimensions L x W x H (Includes Covers)	Graduation Color
